

The diagram illustrates a 10x10 grid of squares. The first two columns are shaded gray. The remaining eight columns are divided into two groups of four columns each. The top four rows of the first group are shaded gray, and the bottom four rows of the second group are shaded gray. A small triangle points to the top center of the grid.

The diagram illustrates a 10x10 grid of squares. The first two columns are shaded gray. The remaining eight columns are divided into two groups of four columns each, each group containing a vertical stack of four squares. A small triangle points to the top center of the grid.

The diagram illustrates a 10x10 grid of squares. The first four columns are shaded gray. The first two rows are labeled '1' and '2' on the left. The first four columns are labeled '1', '2', '3', and '4' at the top. A small triangle points to the top of the first column.
